## Adopt a tree

20 March 2024

Dear Parents/Carers

We have been given a selection of tree saplings by the Woodland Trust, as part of their mission to grow millions of healthy, native trees across the UK, to help protect us from the effects of climate change.

We would like to offer children the opportunity to adopt a tree for a cost of £5, to deepen their awareness of individual trees over time, to encourage a greater understanding and appreciation of their local environment. The money will then be used to create exciting sustainability projects across the school with our Eco team.

Each sapling will be provided in a pot for children to take home and look after. It will come with a journal for them to write down how they are looking after the tree. Photographs of the growth can be added explaining how or where it has been planted and the changes observed over time.

Children will receive either a hawthorn, dogwood, wild cherry, silver birch, hazel or rowan sapling, as part of a year-round colour selection. Over time you can enjoy beautiful blossoms, bright berries, and stunning autumn displays.

Every sapling will come with step-by-step instructions on when and how to plant the tree with a link for further advice on planting. Every child involved in planting for the community will receive a certificate.

Trees will be allocated on a 'first come first served' basis. If your child would like to adopt a tree, please complete your order and payment on ParentMail.

Thank you for your support
